

book management & memos

Introducing our two newest Web Parts. Keep track of all your books. Leave memos for colleagues.

## Memos

**Use Post-Its on your SharePoint!** You have something to say, but it is not important enough for a news entry? No problem. With the HSG Memo Web Part, you can easily leave messages and memos on your SharePoint system. And the best part? This Web Part is available for free.

## Say what You Want

With the HSG Memo Web Part, you can insert Memos wherever you want. Quickly create small notes that are hard to miss. Perfect for those little messages that do not warrant a news entry. Never miss a memo again.

## Book Management

**Books are great.** Everybody wants to borrow a book every once in a while. However, keeping track of everything can be quite tedious. Who has what book at the moment? Which books are in the library? With our Book Management Web Part, you are in control of your books.

## Where is that Book?

No more keeping track of which book is where. With the HSG Book Management Web Part, users can browse the library, find information to books and then even check one out with a single click. Never has maintaining the company's library been this easy.

## Free? Really? How free?

We at Hagenberg Software believe in sharing. Having created these small, but useful Web Parts for company internal use, we decided to share them with you, our customers. And, as a way of saying "thank you" for choosing us as your SharePoint partners, we offer you these two Web Parts for free.

## Tap into Earth's largest Book Store

Tired of editing information and cover pictures of your books manually? Our Web Part connects to Amazon and automatically retrieves the needed information over the internet. It makes sure your library's information is complete, so you don't have to.

## Interested?

Feel free to contact us. We offer online presentations, trial versions and answers to all questions you may have concerning our products and licensing.
