

comments & rating web parts

Get your users involved. Start a dialog. Ask for the user's feedback. The HSG Comment and Rating System Web Parts.

Comments

Give your users a voice! Let them express their opinion on any list object in SharePoint. All the user requires is read access to the list he wants to comment on. Soon your SharePoint and its users will be much more active than before.

Involve the Users

Give the users the power to comment on almost any object in SharePoint they want to. They can start dialogs, share and add information, offer critique or just plain socialize with colleagues.

Comment Anything

Created as its own list content type, the Comment Web Part can be inserted almost anywhere in SharePoint. This ensures the system will integrate seamlessly into your SharePoint.

The solid back-end means that as an editor you never lose control.

Rating System

Everyone has an opinion. With the Rating System Web Part, users can easily rate and comment any element in SharePoint. Which news article was best received this month? Which of the new designs is the most interesting? With this Web Part the users will soon tell you.

Find the Best

With the Rating System Web Part your users can rate and comment almost anything in SharePoint. Let the readers decide which blog post is the most relevant, or which picture to use on the cover of the annual newsletter.

You control the Data

With powerful back-end control, this Web Part ensures the Data remains where you want it. In your control.

And with views such as the rating summary, you have all the tools you need for sharing the rating results with whomever you want.
