

voting & picture upload web parts

Vote on important issues.
Comfortable image uploading.
The HSG Voting and
Picture Upload Web Parts.

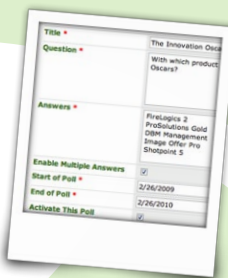

3 1 2 Voting

A decision that involves everyone? Why not let your users vote on it? With the voting Web Part you can create polls that allow your users to express their opinion on any issue you choose. Soon you will have all the feedback you need.

Ask the Users

People love to vote. Let your users define their opinion in one click and then compare it to others. Make issues and decisions interesting by letting people have a say.

You are in full Control

The Voting Web Part makes your life easier with many administrative features such as the possibility for multiple answers and controls for duration and visibility.

You create the polls. You decide who can access what voting and which information is presented where.

Picture Upload

Tired of typing a long URL every time you want to insert an image in SharePoint? With the picture upload Web Part such annoying inconveniences are a thing of the past. A simple click on the image you want is all that is required.

Comfortable Uploading

With this Web Part inserting images in SharePoint becomes a comfortable task that anyone can do. No more copy and pasting long image URLs into tiny input fields. Choose the picture you want from a list of suitable images and this Web Part takes care of the rest.

The Features you've always wanted

Image lists that are comfortable to use. Automatic thumbnail creation. One click uploading. After using our Picture Upload Web Part, you will never look at image management in SharePoint the same again. And your users will love you for the extra images you put on the webpage.
